Installation

All apps are available through the Microsoft Marketplace for Business Central extensions/apps. From here you can automatically install the extension and make it available within every company in your Business Central environment. Click on the search icon and type Extension to go to the extension marketplace page.

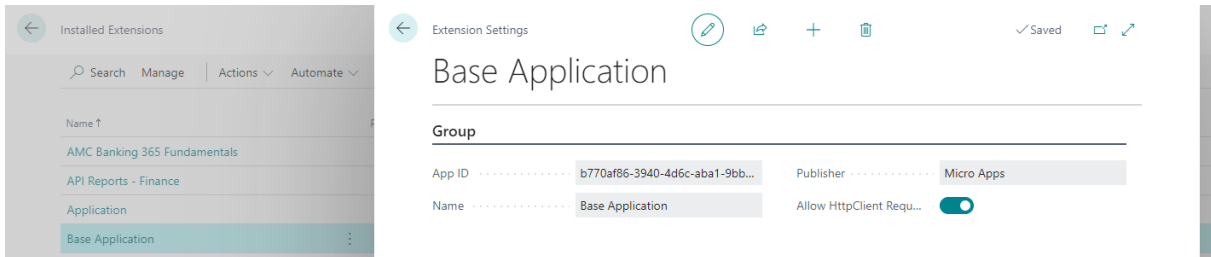

Search for your app and click on Free Trial. Confirm your details and click again on Free Trial. Your App is getting installed and is visible on the extensions page.

Configuration base application

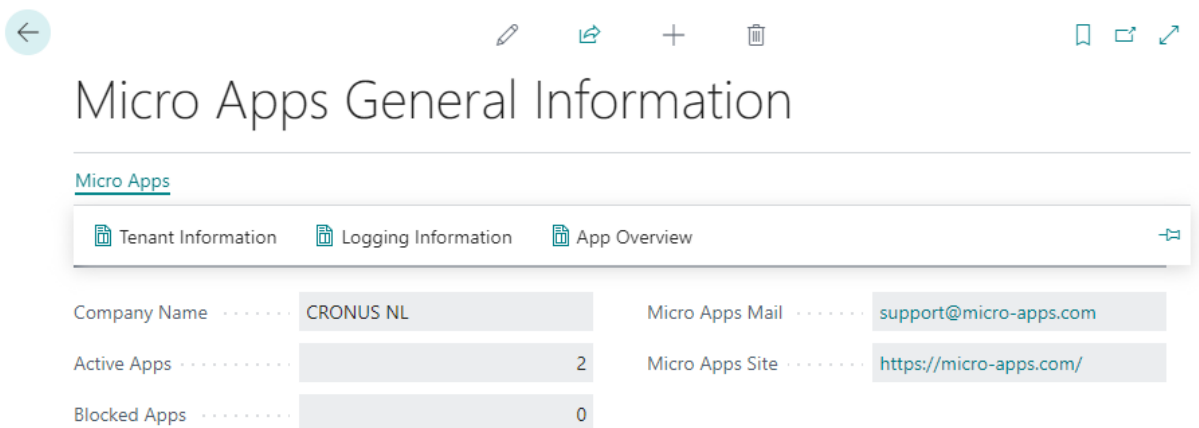

To be able to use the application correctly, you need to make sure that the field “Allowing HttpClient Request” is checked for the Base Application. During the setup you’ll get a message saying to activate this field. If the message did not appear, go to the page “Extension Management” and click on the Base Application by Micro Apps. You’ll see basic information of the app and the field “Allowing HttpClient Request”. Make sure that the field is checked.

After downloading and installing the application, the setup wizard will automatically show up. During the setup you’ll have to register at Micro Apps.

Registering

Before you can use the application, you’ll need to register. This can be done in the “Tenant Information” page. Navigate to “Micro Apps General Information” and click on “Micro Apps”. You’ll see 3 buttons: Tenant Information, Logging Information and App Overview. To register you’ll need to click on “Tenant Information”.

On the next page you need to fill in your information. After filling in your information, you can click on “Register or Update Tenant Information.” If there’re any changes to the company information, you can fill the fields again and click on the same button. The information will be updated in our systems.

Activating Trial or Subscription

Before you finally can use your app, we need to activate before starting using it. Apps may contain different subscriptions see <https://micro-apps.com/> for pricing and contract details. By uninstalling one of your apps, don't forget to uninstall it within the base application to stop the billing process. (See the next page to uninstall your app). Go back to the "Micro Apps General Information" page and click on "Micro Apps" and select "App Overview". Select your app by clicking on the app name.

The screenshot shows the 'App Card' for 'Banking NL'. The interface includes a search bar, a list of apps, and a detailed view of the selected app. The subscription details are as follows:

General	
Name	Banking NL
Max Usage per Month	499
Start Date Trial	
Price Subscription (E...)	19,00
End Date Trial	10-1-2023
Invoice per	Month

If you want to test our app, you can start a free trial period by clicking on “Start Free Trial”. If you want to start your subscription, click on “Check Subscription Pricing”. Select the subscription that fits your needs and click on “Start/Change Subscription”.

The screenshot shows a pricing overview table with the following columns: Description, Max Usage per Month, and Price (EUR) ↑. The first row is highlighted in light blue.

Description	Max Usage per Month	Price (EUR) ↑

Premium - Including 5 bank accounts and 3 Biz...	24999	119,00
Unlimited - Including 10 bank accounts and 4 B...	Unlimited	319,00

Setup

Once the installation is completed, you’ll need to setup the app. Container Shipment Wizard. The wizard contains all the necessary steps to complete the setup for the application. It automatically pops up after installing the application from the AppSource.

The screenshot shows the "Container Shipment wizard" interface. It includes a gear icon for settings, a welcome message, and a "Next" button at the bottom.

Container Shipment wizard

Welcome to the container shipment configuration wizard
This setup wizard configures the Container Shipment app created by Micro-Apps.

Get Started!
In the next steps we activate the application and assign the no. series for the containers and shipments

Next

Pre-setup

If this is your first time installing a Micro Apps application, then you’ll need to register. Click on the “Next” button. You will see the following page. On this page you can register yourself at Micro Apps and activate a trial or subscription.

Container Shipment wizard

Beforehand - Activate trial/subscription

To use this app, you need to register yourself. If you have not registered yet, click on the 'Register' button, fill in the required information on the page and click on 'Register or Update Tenant Information'.

Tenant Information Registered

To use the this app, you need to start a free trial or subscription. If you have not done this yet, click on 'App Card' and activate a trial or subscription.

App Activated

Click on 'Next' if you have a trial or subscription for this app.

To register, click on the "Register" button. After registering, you also need to activate the trial or subscription. To activate the trial or subscription, press the "App Card" button. This will take you to the card page of the Container Shipment application. When choosing the trial, keep in mind that you can use the app for 2 weeks free of charge. After the trial period, you'll need to activate the subscription. When you've registered at Micro Apps and activated a trial or subscription, the 2 fields in the image above are checked.

Set number series for container and shipment.

Select the No. series for the containers and the container shipments. is necessary to create a unique number for them. If there are no number series that fit your needs. Please create a new no. series on the no. series page.

Container Shipment wizard

Create and select the no. series for the containers and the shipments

No. Series Container

No. Series Shipment

Set shipping and receiving time.

If both fields are checked, you can click on “Next” to go to the next page. In the next screen you can set the shipping times of the shipments. The first field is the Default Shipping Time. The Container Shipment app will use this field to calculate the (Expected) Arrival Date of the goods at the point of entry. The second field describes the default time to transport the goods from the entry point to the warehouse. This date will also be used to calculate the Arrival Date.

To set the shipping time use the syntax where the star symbol is the amount (*):

(2M is used to describe 2 month)

***M** = Month

***W** = Week

***D** = Day

Container Shipment wizard

T

In the fields below you can set how long a shipment takes on average. For example use '10D' for 10 days, '3W' for 3 weeks or '2M' for 2 month.

Select here the standard or average shipping time that a container is on its way.

Default Shipping Time

Select here, if applicable, the default or average shipping time that a container is on its way from the receiving location to the storage location.

Default Receiving Port Shipping ...

Movement reference numbers

A Movement Reference Number, or MRN number, is a customs registration number that makes it possible for customs to identify and process a shipment in the customs system. If you want to make this field mandatory in Business Central, then check the MRN mandatory field. As shown in the image below.

The screenshot shows a window titled "Container Shipment wizard" with a close button (X) and a share icon. Below the title bar is a gear icon. The main content area contains the following text: "A Movement Reference Number, or MRN number, is a customs registration number that makes it possible for customs to identify and process a shipment in the customs system. Activate the option below to make the MRN number a mandatory field on container shipments." Below this text is a toggle switch labeled "MRN Mandatory" which is currently turned on. At the bottom of the window are two buttons: "Back" and "Next".

Permission sets

To be able to use the app, users need additional permissions. Users that have the “Super” permission set have sufficient permissions. They will not need any additional permissions. To add the additional permission to other users, go to the “Users” page. You can use the search bar or click on “Open User Overview”.

Container Shipment wizard ↗ ✕

Permission Sets

The users of the app need additional permissions to use the app. Users with the 'super' permission set have sufficient permissions.

Set the permissionset

To add the necessary permissions to the user, open the user overview within Business Central. Then select the user who should have access to the app and assign the "Container Shipment" permission set.

Back
Open User Overview
Next

Go to the user that needs the permission and add the “MAP CON Cont App”. This permission set is made during the installation of the application.

User Card

✕ Web Service Access Key is no longer supported in Business Central online. Integrations using this technology will stop working. Please use OAuth instead. [Don't show me again](#) | [Show more](#)
